

FRASER VALLEY POOL LEAGUE

STATS FOR MARCH 22, 2006

Another message from the President!

The following is an excerpt from the Players Handbook.

Format

(i) (i) **Top 32 Tournament**

The top 32 players in the League, with seeded "BYE"s if the entire field cannot be filled. The format is a double knockout, race to 5 on both the "A" & "B" sides. Stick fees are \$10.00 per player, and are the responsibility of the individual player (although some teams pay the player stick fees from their team funds).

The total purse is the total of the stick fees, plus 33.3% of the total playoff money accrued by the League, plus any 50/50 money raised during the event. Prize money is paid to 8th place regardless of the number of players competing.

(ii) (ii) **Second 32 Tournament**

Open to players positioned 33rd through 64th on the Yearend Standings report, unless they have volunteered to play in the Top 32 Tournament. The format is the same as for the Top 32 Tournament with the exception that the race will be to 4 on both sides.

The total purse is the total of the stick fees, plus 33.3% of the total playoff money accrued by the League, plus any 50/50 money raised during the event. Prize money is paid to the 8th place regardless of the number of players competing.

(iii) (iii) **Consolation Tournament**

All remaining players in the League who have played at least 60% of the League season and who have not already played in either of the above tournaments qualify for this tournament. The format is the same as above with the following exception that the race is determined at the time of play (dependent on the number of players competing).

The purse consists of all player stick fees plus 33.3% of the total playoff money accrued by the League, plus any 50/50 money raised during the event. The number of players paid out depends on the number of players competing, but will be a minimum of 25% of the field.

Consolation Tournament

- Play starts at 11:45
- We have not heard back from the Surrey Inn whether or not they will open early.

Stats and league schedule can be viewed on www.billiardparty.com

There has been some discussion regarding the payouts for each tournament. We will be following the Players Handbook on this. I have attached an excel file that shows payout percentage. Please note that I only calculated 16 players and 32 players to give an idea of the actual figures.

For the second 32, we need to make sure that there will be enough league-sized cue balls. If you are attending the second 32 and have one, please let me know.

Thanks,
Darren Earle
